1.6 Mistrade Fees

Trading participants, whose transactions at EEX Spot Markets or at EEX Derivatives Markets or at EEX OTF have been cancelled according to the respectively valid mistrade rules of the exchange including the Trading Rules of the EEX OTF, will be charged a mistrade fee according to the following scheme:

<ul style="list-style-type: none"> ▪ Power (Derivatives Market) 	<ul style="list-style-type: none"> ▪ Companies that have a quotation obligation towards the exchange or towards the EEX OTF: € 500 ▪ Other trading participants: € 0.10 per MWh multiplied by the contract volume¹⁾, at least € 1,000 and at the most € 3,000, however, per mistrade request.
<ul style="list-style-type: none"> ▪ Emission Rights (Spot and Derivatives Market) ▪ Agricultural products (Derivatives Market)²⁾ 	<ul style="list-style-type: none"> ▪ € 500
<ul style="list-style-type: none"> ▪ All other products 	<ul style="list-style-type: none"> ▪ € 5,000

¹⁾ Combined trades are not considered for calculating the fees.

²⁾ Mistrade fees will be applied per executed order, not solely per trade.

1.7 Fee for Excessive Use of the Trading Systems

In case of excessive use of EEX's including the EEX OTF's trading system T7, respectively, by entering, changing, or deleting disproportionately many orders (Entries) of one trading participant per exchange or trading day, respectively, EEX AG charges a tiered fee (ESU Fee) to mitigate negative effects to the stability of the systems of EEX and the EEX OTF, respectively, and the integrity of the markets of EEX (including the EEX OTF).

The Entries are calculated according to the following rules:

- Entry and Deletion of an order, respectively: each one entry
- Change of an order: two entries
- Entry of combined orders: two entries or as many entries as individual orders, respectively
- Quotes: two entries
- No entry: measures conducted by the trading systems, e.g. deletion of orders

Disproportionately many Entries of one trading participant are existent, if the number of Entries of that trading participant per executed transaction per exchange or trading day, respectively, is greater than the free number of Entries determined for the respective product and market segment (Entry-Transaction-Ratio or ETR), whereas the ETR for one transaction is also valid, if no transaction has been executed. The respective ETR per product and market segment amounts to:

Product	Market Segment	ETR
Power	Derivatives Market	60,000
Emission Rights	Derivatives Market	30,000
	Spot Market	5,000
Coal	Derivatives Market	5,000
Agricultural products	Derivatives Market	5,000
Other products	Spot/Derivatives Market	5,000

The ESU Fee will be charged solely for the Entries that constitute the excessive use of EEX's or EEX OTF's trading systems (Exceedance), respectively. The amount of the ESU Fee will be determined for each Exceedance subject to the level of exceedance (up to and including 50 %, over 50 % up to and including 100 %, over 100 %) according to the following table:

Product	Market Segment	Factor for Exceedance (in €)		
		≤ 50%	> 50–100%	>100%
Power	Derivatives Market	0.01	0.02	0.03
Emission Rights	Derivatives Market	0.01	0.02	0.03
	Spot Market	0.01	0.02	0.03
Coal	Derivatives Market	0.01	0.02	0.03
Agricultural products	Derivatives Market	0,01	0,02	0,03
Other products	Spot/Derivatives Market	0,01	0,02	0,03

The ESU Fee according to this section will be reimbursed, if the number of exchange or trading days, respectively, the ESU Fee has been incurred for the respective trading participant in the relevant calendar month is not greater than five and the trading participant provides EEX AG with plausible reasons in text form within one week after the respective invoice has been sent that the excessive system use did not occur deliberately or grossly negligently.

The provisions regarding the ESU Fee do not apply to Entries made within the scope of auctions and for trading participants having quoting obligations.

Example for the determination of the ESU Fees:

A trading participant generates on one exchange or trading day, respectively, in the market segment „Derivatives Market“ for the product “Power” 300,000 Entries and 2 transactions, i.e. the trading participant generated 150,000 Entries per transaction. The permitted ETR, however, amounts to 60,000. Thus, the ESU Fee adds up to:

Entries per Trade: 0 – 60,000 (ESU Limit)	= 60,000 à € 0.00 € → € 0.00
Entries per Trade: 60,001 – 90,000 (≤ 50% Exceedance)	= 30,000 à € 0.01 € → € 300.00
Entries per Trade: 90,001 – 120,000 (> 50% – 100 % Exceedance)	= 30,000 à € 0.02 € → € 600.00
Entries per Trade: 120,001 – 150,000 (> 100 % Exceedance)	= 30,000 à € 0.03 € → € 900.00

ESU Fee: € 300.00 + € 600.00 + € 900.00 = **€ 1,800.00**
