Once the Contracting Party has submitted its order, EEX AG will send an email to the email address the Contracting Party has provided, acknowledging receipt of the order and setting out details of the ordered EEX Group DataSource Product(s). This email does not constitute an acceptance of the order - only an acknowledgement that EEX AG has received it. Once EEX AG has acknowledged receipt of the order, EEX AG will check the availability of the EEX Group DataSource Product.

The information on the Website does not constitute a binding offer to sell EEX Group DataSource Products described on the Website. - Bank transfer to the bank account details mentioned in the (pro forma) invoice.
- Other payment methods made explicitly available on the Website.

In the event that the sum due from the Contracting Party for the order cannot be debited or charged for whatever reason, the order will be cancelled. By making an offer to purchase our EEX Group DataSource Products, the Contracting Party authorizes us, to the extent permitted by applicable law,

to perform credit and anti-fraud checks on the Contracting Party and the payment mechanism that the Contracting Party has provided. These checks may be required, amongst other things, to authenticate the identity, to validate the credit or debit card, to obtain an initial credit or debit card authorization and/or to authorize individual purchases. The Contracting Party authorizes us to disclose Information provided by the Contracting Party, including personal information, to third parties such as banks and the providers of credit reports for the purposes of these checks, and acknowledge that such parties may keep a record of that information.
