

**EPEX SPOT is looking for a Project Manager / Product Owner**

**Fluent in English**

**Permanent Employment Contract**

## **THE COMPANY**

**The European Power Exchange EPEX SPOT SE** and its affiliates operate short-term electricity markets for Germany, France, United Kingdom, the Netherlands, Belgium, Austria, Switzerland and Luxembourg; markets representing 50% of European electricity consumption. Joining EPEX means to work for a dynamic company which operates in a constantly moving landscape, where regulation, power generation and consumption fundamentals keep evolving. EPEX SPOT plays a pivotal role by ensuring that the pricing of electricity on the wholesale market remains accurate by offering its members the right products for power trading. Our strength is our staff, consisting of ambitious team players who all want to shape the future of the European power market. Striving for the well-functioning Internal Energy Market, EPEX SPOT shares its expertise with partners across the European continent and beyond. We offer you the opportunity to be part of this endeavor. Do you want to change the world of power? Join us!

EPEX SPOT is a European company (Societas Europaea) in corporate structure and staff, based in Paris with offices or affiliates in Amsterdam, Bern, Brussels, Leipzig, London and Vienna. 270 companies have traded 530 TWh of electricity on EPEX in 2016. EPEX SPOT is member of EEX Group, part of Deutsche Börse. European electricity transmission system operators hold 49% of EPEX SPOT through HGRT.

## **MISSION AND CONTENT OF THE JOB**

The Project Manager/Product Owner will actively work in the Project Department on projects and specifically on the Product, a system being key asset for EPEX SPOT business, driven by release management, in collaboration with several departments of the company.

His/her main missions will include the following :

- Work in an international context in tight coordination with partners (Power exchanges, Clearing Houses, Transmission Systems Operators and our providers) requiring a high level of adaptability related to the challenges of multi-cultural projects.
- Take lead on several of the key system of EPEX SPOT, and be the central interface with internal teams, our providers and our clients, with a direct link to the core business of the exchange. Ensure an efficient stakeholder management in the heart of the company priorities.
- Drive the project team to the completion of the product roadmap objectives and deliveries. Manage the relationship with our provider and internal/external clients of the Products.
- Provide backlog management, iteration planning, and elaboration of the user stories. Work closely with Product Management to understand strategic priorities of the company, plan and prioritize accordingly the product features of the backlog.

- Initiate the product plan, work with the team and elaborate with them the necessary project framework. Lead the planning product release plans and set expectation for delivery of features.
- Organize and coordinate the release implementation cycle. Take lead on meetings and project documentations.
- Contribute actively to business projects, reflect their needs into the product plan, and manage continuously the dependencies of these projects with the product.
- Identify and monitor project risks, challenges and issues, keep a problem solving oriented mindset, look after solution in collaboration with the project team, provide an active role in mitigating them, report and escalate whenever necessary.

The position can be subject to evolution depending on candidate profile and experience.
