

## ECC C7 Migration – Update on launch date

### Summary

To allow for additional testing time for members and Independent Software Vendors and to ensure technical and operational readiness, the migration of ECC derivatives position & transaction management services to C7 (“C7 Migration”), originally planned for 24 June 2019, is now planned for **12 August 2019**.

The migration will follow the same approach and sequence as announced in ECC Clearing Circular No. 52/2018. Further information, including the detailed introduction planning will be provided in calendar week 25 in a dedicated circular.

We would like to apologize for any inconvenience caused. We remain, of course, available for your questions via [c7@ecc.de](mailto:c7@ecc.de).

#### Update on C7 simulation

All current customer simulation facilities will remain available until the new migration date. ECC members and partners are encouraged to use the additional time for further preparation and testing. Especially the ECC-specific clearing functionality “Cascading” can be tested again on 27 June 2019.

#### Update on C7 production preparation

We would like to remind members, that member and user-level setup and configuration is available in C7 production since 29 May 2019 and have to be completed until the new launch date. Required forms must be submitted until 30 June 2019.
