

EEX Transparency Services and Inside Information Platform for market participants

Dear client,

Your company is subject to the inside information disclosure requirements under Regulation (EU) No. 1227/2011 (“REMIT”). Since 1 January 2021 companies registered as power or natural gas market participants are required to disclose their inside information exclusively via a formally accredited Inside Information Platform (IIP).

In its Guidance (5th Edition), the Agency for the Cooperation of Energy Regulators (“ACER”) stated that reporting via an own website does no longer comply with REMIT’s disclosure requirements. Furthermore, market participants without physical facilities or with generation units with a production capacity below 100 MW must also be able to report market-relevant information via an IIP.

National Regulatory Authorities (NRAs) such as BNetzA in Germany recently started to double check if registered market participants completed their registration in full by nominating an official IIP for inside information disclosure other than their own website.

European Energy Exchange AG (EEX) supports companies in implementing these advanced REMIT requirements, by offering a convenient reporting tool called **EEX Inside Information Messenger**. It enables market participants to publish their inside information for the business and any physical facilities in an effective and timely manner via the EEX Transparency

Platform. The EEX Transparency Platform is one of the leading European REMIT IIPs, fully accredited by ACER.

Our Services

- ✓ **Effective** and **timely** data publication on a central IIP
- ✓ Automatic data forwarding to **ACER** and where **additionally needed to NRAs and ENTSO-E**

Your Advantages

- ✓ Far-reaching effective disclosure
- ✓ EEX operates an accredited Inside Information Platform and acts as an acknowledged third-party data provider for ENTSO-E
- ✓ Secure and certificate-based solution
- ✓ Continuous development to fulfil regulatory requirements
- ✓ Technical validation & quality checks ensure highest data quality
- ✓ Report efficiently and easily with the EEX Inside Information Messenger (web-based) or connect directly to our web service API.
- ✓ More than **120 companies** from **13 countries** report data for even more market participants to our platform. You can find a list of all reporting companies [here](#).

For further details on REMIT reporting and the services offered by EEX Transparency Services please have a look on remit-reporting.com.

In case you should have any further questions, please do not hesitate to contact us.

Yours sincerely,

EEX Transparency Services
