# 1. Transaction Fees

## 1.1 General

EEX AG charges transaction fees for the execution of orders and the registration of trades (together “Transactions”). The transaction fees have to be paid by the respective trading participants on whose behalf the Transaction has been executed in accordance with EEX’s Rules and Regulations. Transaction fees are derived from the volume executed in the corresponding units in Megawatt hours (MWh), Therms (thm), million British thermal unit (MMBtu), kilo tonnes of carbon dioxide (ktCO<sub>2</sub>), metric tonnes (t), short tons (st), days (d), or hours (h), respectively, or on the number of contracts concluded (Contract).

### 1.1.1 Combined Transactions

For Transactions in combined instruments or combined orders (spreads)

- that combine only physically settled Natural Gas Futures, only the transaction fee of the first mentioned product of the respective spread is charged. For transactions based on an implicit order in the trading system, only the transaction fee is charged for the product to which the implicit order relates.
- that combine EEX EGSI Natural Gas Future for different market areas (location spreads), only the transaction fee for the first mentioned market area of the respective location spread is charged.
- that combine physically settled Natural Gas Futures with EEX EGSI Natural Gas Futures, only the transaction fee of the physically settled Natural Gas Future of the respective spread is charged.
- that combine an EEX EGSI Natural Gas Future with an EEX Power Future (spark spread), the transaction fee of the EEX EGSI Natural Gas Future of the respective spark spread is waived.
- that combine emissions spot products and futures on emission rights only the transaction fee for the futures product of the respective spread is charged.

In case of trade registration of

- two transactions in only physically settled Natural Gas Futures,
- two transactions in EEX EGSI Natural Gas Future for different market areas,
- one transaction in physically settled Natural Gas Futures and one transaction in EEX EGSI Natural Gas Futures, or
- one transaction in EEX EGSI Natural Gas Futures and one transaction in EEX Power Futures,

a transaction fee shall only be charged for one of the two transactions if

- the respective product combination is available as combined instrument or combined order (spread) for orderbook trading with a waiver of the transaction fee for one leg according to the aforementioned,
- the Trading Participant acts as buyer in one transaction and as seller in the other,
- the lot size of both transactions is identical,
- both transactions were entered into the EEX Trading System with a maximum time difference of one second.

The transaction for which the transaction fee is charged is determined according to the same criteria as in the case of order book trading in the corresponding combined instruments or combined orders (spreads).

#### 1.1.2 Delta Hedge Discount for Power and Natural Gas Products

For a Transaction entailing a delta hedge in an Option on EEX Futures (currently, EEX Power Futures or EEX Natural Gas Futures) (delta hedge), the transaction fee for the delta hedge will be reimbursed provided that (i) the option and delta hedge are concluded at EEX on the same trading day and (ii) the trade ID of the delta hedge is indicated when concluding the option. The discount is only available when establishing an initial futures position.

## 1.2 Power Products

### 1.2.1 Fees

Subject to the provisions in section 1.1 (spread and delta hedge), EEX AG charges the following fees for transactions in power products:

#### EEX Power Futures (including EEX OTF Products)

Transactions in		
EEX Power Futures not covered by any of the special cases hereafter:

## 1.2.2 Rebates

The transaction fees in power products (EEX Power Futures and Options on EEX Power Futures – regulated market) are subject to the following rebates:

Monthly traded volumes <sup>1), 2)</sup> (cumulated volumes from all trades in EEX Power Futures and Options on EEX Power Futures – regulated market)	Rebate rates (in % of the EEX transaction fees for the respective products for volumes <sup>1), 3)</sup> within the respective threshold ranges) <sup>4), 5)</sup>
Up to (including) 10 TWh	0%
Above 10 TWh up to (including) 15 TWh	25%
Above 15 TWh	50%

<sup>1)</sup> Volumes include orderbook and trade registration volumes on P-Accounts and M-Accounts. Free volumes (i.e. volumes for which the Trading Participant is not charged any transaction fees, for example volumes with fee holidays) are excluded.

<sup>2)</sup> Orderbook volumes and trade registration volumes are considered in full.

<sup>3)</sup> Orderbook volumes are considered in full. Trade registration volumes are only considered up to the level of the orderbook volumes.

<sup>4)</sup> Each rebate rate is only applied for volumes above the last threshold up to the respective next threshold.

<sup>5)</sup> If the sum of the rebate for a Power Market Area and of a Market Maker compensation earned by the Trading Participant for the same Power Market Area exceeds the maximum monthly compensation the Trading Participant can earn for the respective Power Market Area under its Market Making Agreement, the amount exceeding this maximum compensation is deducted from the rebate for the respective Power Market Area.

<u>Transactions in EEX EU ETS2 Futures</u>	<u>3.50</u>	<u>€ per ktCO<sub>2</sub></u>

<sup>1)</sup> EUAA expected to be tradable only until (including) 6 May 2025.

<sup>2)</sup> Upon sign-up and confirmation, new or newly active trading participants (trading participants who have traded less than 50 ktCO<sub>2</sub> in futures and options on emission allowances during any three consecutive (full) calendar months within the last 12 months) will pay a reduced transaction fee of € 0.50 per ktCO<sub>2</sub>. The reduced transaction fee applies to the trading participant's total trading volume. The reduced transaction fee shall also apply to trading volumes of a trading participant's indirect trading participant(s) (*mittelbare Handelsteilnehmer*) within the meaning of Section 2(8) BörsG (Agency Clients) if such Agency Client(s) fulfil(s) the criteria as specified above, provided that the trading participant ensures that the reduction is passed on economically to its respective Agency Client(s). In any case, to avoid double crediting at the expense of EEX AG, the reduced transaction fee only applies in relation to trading volumes of Agency Clients insofar as these Agency Clients do not receive similar benefits directly from EEX AG.

Trading participants and Agency Clients interested in benefiting from this scheme: Please contact EEX AG via your Key Account Manager or [emissions@eex.com](mailto:emissions@eex.com). The reduction will be granted for a period of twelve (12) months as of the month of sign-up. This reduction will only be granted once.

<sup>3)</sup> Futures on EUAA expected to be tradable only until (including) 6 May 2025.

## 1.5 Futures on Guarantees of Origin

### 1.5.1 Fees

EEX charges the following fees for transactions in Futures on Guarantees of Origin:

#### Futures on Guarantees of Origin

EEX Power GO Futures	12.00	€ per 1,000 MWh
----------------------	-------	-----------------

### 1.5.2 Rebates

The transaction fees in Futures on Guarantees of Origin are subject to the following rebates:

Monthly traded volumes (cumulated volumes from all trades in EEX Power GO Futures)	Rebate rates (in % of EEX Transaction fees for EEX Power GO Futures)
Up to (including) 150 lots	0%
Above 150 lots up to (including) 300 lots	20%
Above 300 lots up to (including) 600 lots	30%
Above 600 lots	40%

Volumes include orderbook and trade registration volumes. Free volumes are excluded.

## 1.6 Agricultural Products

Subject to the provisions in section 1.1 (spread and delta hedge), EEX AG charges the following fees for transactions in agricultural products:

### Futures on Agricultural Products

Transactions in		
Futures on Potatoes	3.00	€ per Contract
Futures on Butter, Liquid Milk, Skimmed Milk Powder, Whey Powder	1.50	€ per Contract

## 1.7 Global Commodities

Subject to the provisions in section 1.1 (spread and delta hedge), EEX AG charges the following fees for transactions in global commodities:

### Freight Futures and LNG Freight Futures

Transactions in		
Futures on Dry Bulk Time Charter Freight <sup>1)</sup> or Dry Bulk Trip Time Charter Freight <sup>1)</sup>	3.60	\$ per d
Futures on Dry Bulk Voyage Routes Freight <sup>1)</sup>	0.0036	\$ per t
Futures on LNG Freight	3.60	\$ per d

### Options on Freight Futures

Transactions in Options on Futures on Freight <sup>1)</sup>	3.60	\$ per d
---	------	----------

<sup>1)</sup> These transaction fees will be reduced by \$ 0.0030/t (Futures on Dry Bulk Voyage Routes Freight) or \$ 3.00/d (all other Freight Futures and Options) in the following case:

The trading participant is a new trading participant or it grants a new client access to EEX as an indirect trading participant (*mittelbare Handelsteilnehmer*) within the meaning of Article 2 para 8 of the German Exchange Act (Agency Clients). Trading participants and Agency Clients are deemed to be new if they have not been admitted to EEX or have not had indirect access to EEX in the past 12 months.

The reduction shall be granted for one year, calculated from the time when the new trading participant was admitted to trading on EEX or the indirect trading participant was granted access to EEX.

A Trading participant shall receive the reduction for a new Agency Client only insofar as the Agency Client does not receive the benefits of the reduction directly from EEX AG. In this case, the trading participant shall ensure that the reduction is passed on to the respective Agency Client in economic terms.

It is the responsibility of the trading participant to inform EEX AG about new Agency Clients and to provide evidence of the resulting discount entitlements upon request.

Insofar as the reduction relates to the trading participant's own volumes, the granting of the reduction shall (if applicable) be accompanied by the following:

- Market Support Agreements with EEX AG, insofar as they cover trading in products comprised by the reduction, and
  - other incentive schemes of EEX AG for trading in products comprised by the reduction
- are suspended for the time period of granting the reduction to the trading participant.

## 1.8 Trading on Behalf Fees

For the registration of a trade on behalf of trading participants (Trading on Behalf according to section 13 of the EEX Trading Conditions) EEX AG charges an additional fee of € 50.00 from each trading participant who is a party to the respective trade. In case of a give-up already provided for in a trading participant's request for registration, the additional fee shall not be charged to this trading participant but to the trading participant who is a party to the respective trade after the give-up has taken place.

## 2. Trade Cancellation Fees

1) Trading participants who have entered into a later cancelled transaction in their role as a trading broker will be charged a reduced Trade Cancellation Fee of € 500.

2) Except Japanese Power Derivatives.

3) Trade Cancellation Fee will be applied per cancelled transaction.

4) Trade Cancellation Fee will be applied per executed order, not per transaction.

### 3. Fees for Excessive Use of the Trading Systems

In case of excessive use of EEX's including the EEX OTF's trading systems, respectively, EEX AG charges the following fees (that are to be applied cumulatively if the requirements of both fees are fulfilled):

#### 3.1 Fee for Excessive Number of Entries Compared to the Number of Trades Concluded

For a disproportionate number of entries, changes, or deletions of orders (Entries) of one trading participant per exchange or trading day compared to the trades concluded, respectively, EEX AG charges a tiered fee (ESU Fee) to mitigate negative effects to the stability of the systems of EEX and the EEX OTF, respectively, and the integrity of the markets of EEX (including the EEX OTF).

The Entries are calculated according to the following rules:

- Entry and Deletion of an order, respectively: each one entry
- Change of an order: two entries
- Entry of combined orders: two entries or as many entries as individual orders, respectively
- Quotes: two entries
- No entry: measures conducted by the trading systems, e.g., deletion of orders

Disproportionately many Entries of one trading participant are existent, if the number of Entries of that trading participant per executed transaction per exchange or trading day, respectively, is greater than the free number of Entries determined for the respective product and market segment (Entry-Transaction-Ratio or ETR), whereas the ETR for one transaction is also valid, if no transaction has been executed. The respective ETR per product and market segment amounts to:

Product	Market Segment	ETR
Power	Derivatives Market	60,000
Natural Gas	Derivatives Market	60,000
	• Spot Market(Hourly Contracts)	900,000
	• Spot Market (Other Contracts)	350,000
Emission Rights	Derivatives Market	30,000
	Spot Market (except primary auctions)	5,000
Agricultural products	Derivatives Market	5,000

Other products	Spot/Derivatives Market (except primary auctions)	5,000
----------------	--	-------

The ESU Fee will be charged solely for the Entries that constitute the excessive use of EEX's or EEX OTF's trading systems (Exceedance), respectively. The amount of the ESU Fee will be determined for each Exceedance subject to the level of exceedance (up to and including 50 %, over 50 % up to and including 100 %, over 100 %) according to the following table, but shall be at least € 550:

Exceedance	≤ 50%	> 50–100%	>100%
ESU Fee in € per Entry	0.01	0.02	0.03

The ESU Fee according to this section will be reimbursed, if the number of exchange or trading days, respectively, the ESU Fee has been incurred for the respective trading participant in the relevant calendar month is not greater than five and the trading participant provides EEX AG with plausible reasons in text form within one week after the respective invoice has been sent that the excessive system use did not occur deliberately or grossly negligently.

The provisions regarding the ESU Fee do not apply to Entries made within the scope of auctions and for trading participants having quoting obligations.

**Example for the determination of the ESU Fee:**

A trading participant generates on one exchange or trading day, respectively, in the market segment „Derivatives Market“ for the product “Power” 300,000 Entries and 2 transactions, i.e. the trading participant generated 150,000 Entries per transaction. The permitted ETR, however, amounts to 60,000.

Thus, the ESU Fee adds up to:

Entries per Trade: 0 – 60,000 (ESU Limit)	= 60,000 à € 0.00 € → € 0.00
Entries per Trade: 60,001 – 90,000 (≤ 50% Exceedance)	= 30,000 à € 0.01 € → € 300.00
Entries per Trade: 90,001 – 120,000 (> 50% – 100 % Exceedance)	= 30,000 à € 0.02 € → € 600.00
Entries per Trade: 120,001 – 150,000 (> 100 % Exceedance)	= 30,000 à € 0.03 € → € 900.00

**ESU Fee:** € 300.00 + € 600.00 + € 900.00 = **€ 1,800.00**

### 3.2 Fee for Excessive Number of Entries in Case of High Frequency Trading

For an excessive number of entries, changes, or deletions of orders (Entries) of a trading participant per exchange or trading day via High Frequency Trading (HFT), EEX AG charges a tiered fee (HFT-ESU Fee) to mitigate negative effects to the stability of the systems of EEX and the EEX OTF, respectively, and the integrity of the markets of EEX (including the EEX OTF).

An excessive number of Entries of one trading participant is assumed, if the number of Entries of that trading participant exceeds the threshold of 1.7 M Entries per trading day, taking into account Entries in all Power, Natural Gas and Emission Rights products. In this case the following HFT-ESU Fee applies:

Number of Entries:	>1.7 M to 2 M	>2 M to 3.5 M	>3.5 M
HFT-ESU Fee in € per Entry above the threshold:	0.01 <sup>1)</sup>	0.02 <sup>1)</sup>	0.02

<sup>1)</sup> Waived, if the order to trade ratio of the trading participant on the respective trading day is up to 2000.

The Entries are calculated according to the following rules:

- Entry and Deletion of an order, respectively: each one Entry
- Change of an order: one Entry
- Entry of combined orders: one Entry
- Quotes: one Entry
- No entry: measures conducted by the trading systems, e.g., deletion of orders

The provisions regarding the HFT-ESU Fee do not apply to Entries made within the scope of auctions.

**Examples for the determination of the HFT-ESU Fee:**

1.3 M Entries	No HFT-ESU Fee
1.8 M Entries	$100,000 * € 0.01 = € 1,000$
2.5 M Entries	$(300,000 * € 0.01) + (500,000 * € 0.02) = € 13,000$

## 4. Closeout Fee

Trading Participants who are approved to trade EEX Natural Gas Futures that must be physically settled even though they do not have the ability of physical settlement, are charged a Closeout Fee, if they hold positions in EEX Natural Gas Futures that must be physically settled after 12:00 p.m. (noon) of the second Exchange Day before the first delivery day.

This Closeout Fee shall be calculated as follows (rounded commercially to full Euros):

- For contracts in MW or in therm/day by multiplying the net open position with the Trade Cancellation Fee applicable at that time divided by 10.
- For contracts in MWh/day by multiplying the net open position with the Trade Cancellation Fee applicable at that time divided by 10, and dividing the result by the number of calendar days of the respective front month

However, the Closeout Fee shall be at least € 25,000.

### Example for calculating the Closeout Fee:

#### Contracts in MW or in therm/day:

Open Position	Resulting Closeout Fee
500 TTF Month Contracts	$500 * € 1,000 / 10 = 50,000$

#### Contracts in MWh/day:

Open Position	Resulting Closeout Fee
500 PEG Month Contracts, March = front month	$\frac{500 * € 1,000 / 10}{31} = 1,613$

5) The fee is reduced to € 2,500 p.a. for participation exclusively in trading in emission allowances on the spot market (primary and secondary market).

## 5.2 New Trading Participants

New trading participants after having been admitted at EEX (including the conclusion of the OTF Membership Agreement) for the first time<sup>1)</sup> will not be charged membership fees (see Sect. 5.1) for the quarter of the admission and the four subsequent quarters.

<sup>1)</sup> A trading participant is deemed to be admitted to EEX for the first time if the trading participant has not been admitted to EEX or has not been a member of the EEX OTF in the past 12 months.

## 5.3 Temporary View Only Access

Persons who are not trading participants can obtain temporary access to the trading systems of the EEX (including the EEX OTF) exclusively with read access and without the right to participate in trading (View Only). View Only access is provided for three months and can be renewed once for a further three months' period if admission to trading on EEX or membership of the EEX OTF has been applied for. EEX AG charges the following fees for this temporary View Only access:

	<b>Fee</b>
Temporary View Only Access	€ 0 p.a.

Trading participants can gain permanent View Only access to the trading systems of the EEX (including the EEX OTF). There is no charge for the permanent View Only Status itself, but the charges according to Sect. 5.5 apply for the selected technical access.

## 5.4 Fees for Connections

The following fees are charged for the technical accesses (data lines) offered by EEX AG to the trading systems of EEX (including the EEX OTF) from its trading participants depending on the chosen access alternative:

## 5.9 Transparency and Reporting Services

Fees for Transparency and Reporting Services are charged for services for the fulfilment of regulatory obligations.

### 5.9.1 Publication and forwarding of inside information and fundamental data

Fees for Transparency Services are charged for services to fulfil regulatory obligations:

- Publication and forwarding of inside information pursuant to Article 4 para 1 and Article 8 para 5 of Regulation (EU) 1227/2011 (REMIT) or Article 17 para 2 of Regulation (EU) 596/2014 (MAR) according to the business of the client and the capacity, use and unavailability of reported facilities
- Fundamental data report to ACER according to Article 9 para 7 and 9 of Regulation (EU) 1348/2014 (Implementing Regulation)
- Forwarding of power production and consumption data to ENTSO-E in accordance with the requirements of Regulation (EU) 543/2013 (EU Transparency Regulation)

EEX AG charges the following fees, depending on the type of the reports:

a) All customers except Baltic Customers<sup>1)</sup>:

The data delivery contract contains more detailed provisions on this. The data is published on the EEX transparency platform ([www.eex-transparency.com](http://www.eex-transparency.com)).

### 5.9.2 Transaction data pursuant to REMIT

For the provision with the trading participant's order and transaction data as well as their reporting to ACER (Basic Service)<sup>1)</sup>, EICOM<sup>2)</sup> and/or Equias (Additional Service) in accordance with the provisions of REMIT<sup>2)</sup> and further regulations based thereon, EEX AG charges the following fees:

	Basic Service		Additional Service	
	Reporting to ACER and data provision to the trading participant	Reporting to EICom	Data Provision to Equias	
<b>Power Derivatives<sup>3)</sup></b>	€ 285 per month	€ 100 per month	€ 50 per month	
<b>Gas Derivatives &amp; Spot<sup>3)</sup></b>	€ 285 per month	€ 100 per month <sup>4)</sup>	€ 50 per month	

<sup>1)</sup> The use of the Basic Service is mandatory for all trading participants admitted to EEX. The corresponding fee therefore has to be paid by all trading participants. Its scope depends on the products traded by the trading participants (Power Derivatives and/or Gas Derivatives & Spot). This applies irrespective of the existence or scope of a contract on the corresponding service between the trading participant and EEX AG.

<sup>2)</sup> Upon request, the data can also be forwarded to EICom in accordance with the StromVV.

<sup>3)</sup> EEX regulated market and/or EEX OTF.

<sup>4)</sup> The provision of Data related to the market segment EEX Gas will be covered once a reporting obligation for this market segment enters into force and the necessary technical requirements are implemented.

In addition, EEX AG invoices all fees and charges levied by ACER against EEX AG which are specifically attributable to the REMIT notifications of a trading participant to the respective trading participant in full on an annual basis. In this regard, we make reference to *Commission Decision (EU) 2020/2152 on fees due to the European Union Agency for the Cooperation of Energy Regulators for collecting, handling, processing and analysing of information reported under Regulation (EU) No 1227/2011 of the European Parliament and of the Council* ("Commission Decision"), any future amendments to this decision and all further regulations on the future introduction of further corresponding fees.

The same applies to the use of the Additional Service for all fees and charges levied on EEX AG by EICom or Equias (formerly: EFETnet) in the future, insofar as they are specifically attributable to the reporting or provision of data to these bodies for the respective market participant.

### 5.9.3 Position and transaction data pursuant to MiFID II and MiFIR

For the provision of instrument data to clients that are no members of EEX (Instrument Data Provision) and for the provision of draft MiFIR Transaction Reports to clients that are Investment Firms for the purpose of completion and forwarding to Bundesanstalt für Finanzdienstleistungsaufsicht (BaFin) according to the relevant provisions of the national implementation of Directive 2014/65/EU (MiFID II), Regulation (EU) 600/2014 (MiFIR) and further regulations based on them ( MiFIR Transaction Reports - Data Provision for Investment Firms, Scheme 2), EEX AG charges the following fees:

<b>Instrument Data Provision</b>	
For customers that are not members of EEX	€ 300 per month
<b>MiFIR Transaction Reports</b>	
Data Provision for Investment Firms (Scheme 2)	€ 300 per month

The MiFID II/MiFIR Reporting Agreement contains more detailed provisions on the available schemes.

As in Scheme 1 (MiFID II Position Reports - Data Contribution by Trading Participants) and Scheme 3 (MiFIR Transaction Reports - Data Contribution by Third-Country Firms OR Non-Investment Firms) of the MiFiD II/MiFIR Reporting Agreement EEX AG does not provide any services to the client, EEX AG does not charge any fees in this respect.

#### 5.9.4 Further services

For special efforts of EEX AG which go beyond the activities covered by the fees according to Sects. 5.9.2 to 5.9.3 and which have been initiated by the participant, EEX AG will charge the following fees:

Special efforts for activities under	Activity		
	Backloading	Restoring files on FTP server	Separate sending of Acknowledgement File
<b>Sect. 5.9.2 (REMIT)</b>	Time effort-dependent fee, € 150 per hour	Time effort-dependent fee, € 150 per hour	–
<b>Sect. 5.9.3 (MiFID II position reports)</b>	€ 75 per trading day concerned if more than 10 calendar days ago	€ 25 per trading day concerned	€ 50 per file
<b>Sect. 5.9.3 (MiFIR transaction reports)</b>	€ 75 per trading day concerned if more than 10 calendar days ago	€ 25 per trading day concerned	€ 50 per file

Furthermore, in addition to the services pursuant to Sects. 5.9.1 to 5.9.3 further associated services may be requested from EEX AG, such as historical data retrieval. If EEX confirms the possibility of the provision of the associated services, an effort-dependent fee of € 150 per hour or part thereof will be charged. Further details shall be agreed between the parties.

Customers of the "InsightCommodity Entry" and "InsightCommodity Startup" packages are entitled to test a service or product free of charge for a period of 3 months upon conclusion of the contract.

The InsightCommodity Service Agreement contains more detailed provisions.

## 5.11 Other Services

With regard to services not listed in this price and service list which are provided on behalf of the recipient of the service or which are provided in his presumable interest and expected to be subject to payment under the circumstances concerned EEX AG can determine the level of charges at its reasonable discretion (§ 315 of the German Civil Code). The recipient of the service shall also bear any expenses incurred in the context of any activities taken by EEX AG on his behalf or his presumable interest.

## 6. Market Support Agreements

EEX AG offers interested direct or indirect trading participants to support the development of the respective sub-markets of EEX through market support initiatives and/or the assumption of quotation obligations or other support services, in accordance with the following conditions (Market Support Agreement).

All Market Support Agreements described in this Sect. 6 are subject to change and are for information purposes only. The details result from the respective Market Support Agreement to be concluded.

### 6.1 Market Maker Agreements

Market makers must quote according to defined parameters such as order book presence and maximum spreads over a fixed period in the respective order book of EEX in order to receive a corresponding compensation.

In addition to the conclusion of a Market Making Agreement, admission as a Market Maker by the Management Board of the Exchange may be required.

### 6.2 Liquidity Provider Agreements

Liquidity providers must quote according to defined parameters such as order book presence and maximum spreads over a fixed period in the respective order book of the EEX in order to receive a corresponding compensation.

In addition to the conclusion of a Liquidity Provider Agreement, the admission as a Liquidity Provider by the Management Board of the Exchange may be required.

### 6.3 Volume Provider Agreements

Volume Providers are obliged to reach specified volumes when trading on EEX in order to receive a corresponding compensation.

### 6.4 Other Supporter Agreements

Other Supporters must provide defined support services in return for a corresponding compensation.

## 7. General Rules

### 7.1 Validity

In conjunction with the application for admission as a trading participant or the application for participation in trading at the EEX OTF, respectively, the applicant submits an offer to conclude a contract between himself and EEX AG; the object of said contract comprises the inclusion of the trading-related fees of this List of Services and Prices of EEX AG (especially membership fees, technical fees and transaction fees). With the admission of the applicant as trading participant or with the conclusion of an agreement on participation in trading at the EEX OTF, respectively, EEX AG accepts the applicant's offer. Other fees, such as training fees or fees for information products, only become part of this contract by special agreement.

### 7.2 Due Date of Payments

#### 7.2.1 Transaction Fees

Transaction fees for the Spot Markets fall due on the day of the delivery on which the transaction is based. Transaction fees for the Derivatives Markets fall due on the day on which the position on which the transactions is based is opened, closed or has expired. Transaction fees are payable after receipt of invoice.

#### 7.2.2 Membership Fees and Technical Fees

##### 7.2.2.1 General Conditions

Membership fees are due quarterly with the beginning of the quarter for which they are to be paid. Membership fees are charged from the start of the quarter which follows admission to the exchange.

Technical fees will be invoiced at the end of the quarter. The technical fee is due from the time at which the order is placed and not from the time at which admission is granted. If the order is placed at the latest on the 15th day of the month, fees are due for the entire month. If the order is placed after the 15th day of the month, fees are only due starting from the first day of the following month.

##### 7.2.2.2 Special Provisions for Trading in Natural Gas Products

Technical fees for the frontends Trayport<sup>®</sup> Joule<sup>®</sup> Screen and Trayport<sup>®</sup> Trading Gateway<sup>®</sup> if they are also used for trading in natural gas products will be invoiced monthly on a pro rata basis. The technical fees are already due from the time at which an order is placed.

#### 7.2.3 Fees for Transparency and Reporting Services

Fees for Transparency and Reporting Services fall due upon receipt of the invoice. Invoices are issued once per quarter. EEX AG reserves the right to submit invoices electronically.

#### 7.2.37.2.4 Other Fees and Expenses

All other fees and possible expenses, including sales tax, fall due upon presentation-receipt of the invoice.

### 7.3 Debit

Any transaction fees, membership fees, [fees for Transparency and Reporting Services](#), technical fees, and fees for trainings and events (as far as trading participants are concerned) which fall due according to this List of Services and Prices of EEX AG will be debited by clearing with the respective Clearing Member of the respective trading participant.

### 7.4 Value-Added Tax (VAT)

The disclosure of fees in this List of Services and Prices of EEX AG is exclusive of applicable VAT or other taxes. The VAT stated in the invoices is set in accordance with the respectively valid tax regulations.

### 7.5 Termination and Extension of Membership

In the event of a termination of membership, the membership fee shall cease at the end of the quarter in which the trading participant has declared its resignation from admission (Art. 24 par. 1 Exchange Rules) or the Management Board has withdrawn or revoked its admission (Art. 24 par. 2, 3 and 4 Exchange Rules), provided that these events have occurred no later than one month before the end of the quarter, otherwise at the end of the following quarter.

### 7.6 Termination

Unless otherwise agreed, the general period of notice comprises 3 months as of the end of the month. Terminations require the written form. User based accesses can be terminated at any time, taking effect at the end of the month.

If the market participant is changing his technical access, the old technical access will no longer be charged as of the month following the date of the availability of the new access.

### 7.7 Amendments

EEX AG shall be entitled to amend the List of Services and Prices of EEX AG at any time. EEX AG shall announce the price changes that lead to higher fees or other changes at the latest six weeks before such changes come into effect.

Amendments of this List of Services and Prices of EEX AG necessitated by the introduction of new services, the launch of new products on one of the markets of EEX, or the decrease of existing fees become effective as of the date that is declared in the List of Services and Prices of EEX AG provided such are announced at the latest two weeks before such come into effect.

## 7.8 Applicable Law; Place of Jurisdiction

Unless otherwise stipulated in the respective agreements, this List of Services and Prices of EEX AG shall be governed exclusively by the applicable material law of the Federal Republic of Germany to the exclusion of the UN law on sales and the provisions of conflict of laws.

Leipzig shall be the exclusive legal venue for all conflicts arising in connection with this List of Services and Prices of EEX AG and Leipzig shall be the place of performance.
