

Introduction of T7 release 7.0 on 3 December 2018

Dear trading participant,

In line with the Eurex Exchanges' release cycle, the EEX Derivatives Trading System Eurex T7 will be updated to version 7.0 on 3 December 2018. In the framework of the release, interface changes will take place which are described in more detail in Eurex system documentation. One change to mention in particular is the integration of several MIFID II relevant attributes to on exchange trade confirmations and the reports TE810 and TC810.

EEX will ensure the compatibility of the supported trading frontends Trayport Joule© and EEX TT Screen.

T7 version 7.0 is already available for simulation. For further details, please see the T7 simulation calendar.

Yours sincerely,

EEX Market Operations
