

Shutdown of EEX Paris ftp server (ftp://ftp.powernext.fr)

Dear Trading Participant,

We would like to inform you about the planned shutdown of EEX Paris ftp server (<ftp://ftp.powernext.fr>) from 1 October 2024.

For several years now, the EEX Group has been centralizing all its market data offering within the EEX Group DataSource services (API, sFTP, Desktop App or XLS Tool).

In this regard, all data on the EEX Paris ftp server are available on the EEX Group DataSource server and/or APIs. A mapping table summarizing where and how each data can be retrieved is available on the EEX website ("[EEX Paris-DataSource File Mapping](#)").

Should you need EEX natural gas market data for internal usage, please do not hesitate to subscribe directly via the [EEX Group Webshop](#). Please note that EEX members may receive end-of-day data free of charge. Should you wish to share EEX natural gas market data with affiliated companies or clients, in any form, please reach out to EEX Market Data Services.

Get more information about the EEX Group DataSource services on our dedicated page or by contacting directly our Market Data Services team.

Yours sincerely,

European Energy Exchange
