

## EEX to launch Baltic-Finnish Markets

Dear trading participants,

The European Energy Exchange (EEX) will extend its natural gas product offering with the introduction of products for the Baltic-Finnish markets beginning from **Tuesday 27 May 2025**, subject to final decision by the EEX Exchange Council.

The markets currently operated by UAB GET Baltic, part of EEX Group, will be added and tradable on EEX systems. Clearing and Settlement will be handled by European Commodity Clearing AG (ECC). The product portfolio will include **natural gas spot and derivatives contracts** for the gas market areas **Lithuania, Latvia-Estonia, and Finland**.

In addition, EEX will enable location spread trading between these markets and selected pan-European gas markets, which are already available at EEX.

### Admission and product assignment

The three new market areas are included in our natural gas membership packages. Trading participants who want to extend their trading activities to at least one of the three new areas will need to fill in dedicated forms, depending on their current setup. To receive instructions for both ECC and EEX admissions, **please contact the Customer Care team at [membership@eex.com](mailto:membership@eex.com)**.

The completed form(s) must be returned to Customer Care ([membership@eex.com](mailto:membership@eex.com)) by **Friday 28 March 2025** to secure trading on Tuesday 27 May 2025.

For further details about the Baltic-Finnish products offered by EEX please visit the website [www.eex.com/de/markets/natural-gas/upcoming-baltic-finnish-gas-markets](http://www.eex.com/de/markets/natural-gas/upcoming-baltic-finnish-gas-markets).

## Product offering

The product offering for Baltic-Finnish markets will comprise:

Contracts with physical delivery on spot and the full curve of physical futures:

- Lithuanian LTU
- Latvian-Estonian LVA-EST
- Finnish FIN
- Next 12 months
- Next 11 quarters
- Next 11 seasons
- Next 6 years

Integration of Baltic-Finnish markets into reference prices and indices:

- EEX WDRP
- EEX EOD Index
- EEX EGSI
- EEX NDI
- EEX Daily EGIX
- EEX Monthly EGIX
- EEX Monthly Index
- Derivatives Settlement Prices

Locational spread trading with:

- Dutch TTF
- German THE
- Austrian CEGH VTP
- French PEG
- Danish ETF

A detailed schedule and product specifications will be provided in advance of the launch of each segment.

## Clearing and delivery

Both spot and futures products will be introduced with physical delivery. In line with all other natural gas products offered by EEX, our clearing house ECC will assume the clearing and settlement for all transactions concluded in these new products. Additionally, ECC will extend its Direct Clearing Participant (DCP) membership model to enable trading for DCPs on Baltic-Finnish gas spot markets.

## Membership packages

Trading in the three new market areas, LTU, LVA-EST, and FIN, will be included in the following membership packages:

- EEX Full Membership
- EEX Power Plus Membership
- EEX Natural Gas Plus Membership
- EEX Environmental and Emerging Markets Membership

## Transactions and clearing fees

For trading in products for the Baltic-Finnish markets at EEX, dedicated transactions fees will apply. ECC will apply their standard clearing and delivery fees.

Product	EEX transaction Fee	ECC clearing Fee	ECC delivery Fee	Total Fees
Day, Within-Day	0.05 €/MWh	0.01 €/MWh	N/A	0.06 €/MWh
Month, Quarter, Season, Year	0.01 €/MWh	0.0025 €/MWh	0.01 €/MWh	0.0225 €/MWh

*Please note that these prices are yet to be integrated into the List of Services and Prices of EEX AG and therefore are to this date only indicated for the purpose of information.*

Please do not hesitate to contact EEX Market Operations and EEX Customer Care if you have any further questions.

Yours sincerely,

European Energy Exchange AG
