

Additional volume rebates and fee waiver for Natural Gas Derivatives

Dear trading participants,

The European Energy Exchange will improve its existing universal Volume Rebate Scheme with effect from 1 May 2025. On the same day, EEX will also introduce a full fee waiver for transactions concluded in its \$ TTF and Platts JKM products until the end of 2025.

This initiative aims at further strengthening the EEX Natural Gas Derivatives Market which has seen strong growth over the past few years.

Additional rebates for Natural Gas Derivatives

EEX and ECC will offer the following volume-based rebates, effective 1 May 2025.

Monthly traded volumes in TWh (cumulated volumes from all trades in Natural Gas Futures - regulated market and OTF)		Rebate rates transaction fees (in % of EEX transaction fees for the respective products for volumes within the respective threshold ranges)	Rebate rates clearing fees (in % of ECC Clearing Fees for the respective products for volumes within the respective threshold ranges)
From	To (including)		
0.0	4.0	0%	0%
4.0	8.0	30%	0%
8.0	12.0	40%	0%
12.0	30.0	50%	0%
New 30.0	50.0	50%	100%
New 50.0	-	75%	100%

The cumulated monthly clearing volumes include trades in Natural Gas Futures, orderbook and trade registration volumes.

Fee waiver for trading and clearing of Natural Gas Futures denominated in US Dollar

Both EEX and ECC will waive their trading and clearing fees for transactions in Natural Gas Futures denominated in US Dollar, concluded between 1 May and 31 December 2025.

The fee waiver will apply to the following products:

- EEX TTF Natural Gas Front Month (\$/MMBtu) Futures, and,
- EEX Platts JKM LNG Natural Gas Futures

Further details can be found in the [EEX Price List](#) and the [ECC Price List](#) which have been updated accordingly. Please feel free to reach out to your Key Account Manager.

Yours sincerely,
