

EEX automates registration process for trader examination

Dear Exchange Participant,

We are pleased to inform you that the European Energy Exchange (EEX) is streamlining the registration process for the EEX Trader examination, which serves as proof of professional qualification and is a prerequisite for admission as a Trader on the exchange.

Starting from **13 August 2025**, the exam registration will be integrated into the Trader admission application process within the **Member Section**, replacing the current paper-based booking process with the EEX Training & Education department.

For a transitional period until the **end of September 2025**, exam bookings submitted via the existing registration form will still be accepted.

The offered booking options as available on the [EEX website](#) can be chosen in the new subsection "Manage My Trainings & Exams" within the [Member Section](#). Bookings can be made either by the applying EEX Trader (Assistant) or the Admission Administrator. For detailed instructions, please refer to the [Trader Admission Guide](#) that will be updated prior to the go-live.

Your booking request will be directly forwarded to the Training & Education team, and the examinee will be contacted to align all further details, e.g. the examination date.

Many thanks for your support and please do not hesitate to contact us with any questions.

Yours sincerely,

EEX Training & Education
