

## Adjusted auction calendar 2026 for EUA auctions

Dear trading participants,

The 2026 auction calendar has been adjusted for the cancellation of allowances for maritime transport, pursuant to Articles 3gb and 12(3-e) of the ETS Directive and the inclusion of allowances corresponding to the coverage of non-CO2 greenhouse gas emissions from maritime transport.

The below table provides an overview of the adjusted 2026 auction volumes:

	<b>CAP3</b>	<b>DE</b>	<b>PL</b>
Overall volume 2026	408,235,500 EUA	73,563,500 EUA	48,705,500 EUA
Volume per auction Jan-Aug	2,712,500 EUA	1,093,000 EUA	1,524,500 EUA
Volume last auction in Aug	2,937,000 EUA	1,087,500 EUA	1,525,000 EUA
Volume per auction Sep-Dec*	3,159,000 EUA	2,645,500 EUA	2,848,500 EUA
Volume last auction in Dec*	3,158,000 EUA	2,649,500 EUA	2,849,000 EUA

\* The volumes from September to December 2026 are preliminary and can be subject to adjustments.

There will be one EU CAP3 auction per quarter with a different volume as minimum requirements provided by the Auctioning Regulation apply for certain member states with regard to small auction volumes and the frequency of auctions.

### Auctions of EU emission allowances (EUA) by the UK in respect of Northern Ireland:

Pursuant to the [Protocol on Ireland and Northern Ireland](#), the EU ETS applies to electricity generation in Northern Ireland. Therefore, the UK will auction a small volume of allowances corresponding to its share in the Union-wide cap.

EEX will conduct one EUA auction on behalf of Northern Ireland in 2026 with an adjusted volume as follows:

07 October 2026: 782,000 EUA \*)

\*) The 2026 EUA auction volume is preliminary and subject to potential MSR adjustments

EEX provides detailed information in the published [auction calendar](#).
