

EEX to extend expiries for Natural Gas and Guarantees of Origin Futures

Dear trading participants,

The European Energy Exchange (EEX) will expand its product offering on EEX Natural Gas and Guarantees of Origin (GO) derivatives markets with new expiries as of 7 April 2026.

The new expiries will be available for order book trading and trade registration as follows:

EEX Short Code	Name	Tradable Maturities
G3BM, G0BM, G8BM, G5BM	EEX TTF, THE, CEGH VTP, PEG Natural Gas Month Future	next 83 months
G3BQ, G0BQ, G8BQ, G5BQ	EEX TTF, THE, CEGH VTP, PEG Natural Gas Quarter Future	next 27 quarters
G3BS, G0BS, G8BS, G5BS	EEX TTF, THE, CEGH VTP, PEG Natural Gas Season Future	next 12 seasons
EGOH, EGOW, EGOS, EGOE, EGOX, EGOU	EEX European Hydro / Wind / Solar / Renewable / WHS / WHS unsupported Power GO Future	next 6 years

Further details on the product and new expiries can be found on the EEX website in the [EEX Contract Specifications](#) and in the [EEX product code list](#).

Transaction fees

The existing standard transaction and clearing fees for EEX Natural Gas and GO Futures will apply according to the [EEX AG List of Services and Prices](#) and [ECC price list](#).

Admission/Product Assignment

All Exchange Members admitted to the respective product groups (Natural Gas or GO) at EEX and approved by ECC to trade these EEX Derivatives products will automatically receive access to the additional tradable expiries.

Exchange Members who are currently not admitted for the respective EEX Derivatives products will need to submit a product extension request via the [EEX Customer Portal](#).

Clients not yet active at EEX are invited to start the admission process to become an Exchange Member or to explore options of indirect market access via one of the several market access providers to EEX Markets. Please reach out to the EEX Sales Team (sales@eex.com or +49 341 2156-555) to learn more about the options and to start the onboarding process.

For further questions related to the admission process, please contact EEX Customer Care (membership@eex.com or +33 (0)1 70 87 49 00).

Technical access

The new expiries will be automatically integrated into the EEX TT Screen as usual. Members trading through the solutions provided by Trayport® Joule® SaaS must ensure the products are included in their books. The new expiries will be available within the corresponding Trayport instrument. E*star Energy Trader users can independently configure the new expiries in their user interface. Trade registration via Clearing Registration Service (eXRP), Trayport Clearing Link or Touchpoint can be done without additional adjustments.

Regulatory Reporting

Please note that EEX Derivatives contracts must be reported under MiFIDII/MiFIR. Therefore, EEX's MiFIDII/MiFIR Reporting Services will automatically be extended to the new expiries.

The extension of the EEX Natural Gas Derivatives falls under the REMIT reporting obligation, which is covered by the REMIT Reporting Agreement.

Market data access (EEX Group DataSource)

The new expiries will be automatically integrated into the existing EEX Group DataSource products as free extension.

Please do not hesitate to contact us in case of any further questions.

Yours sincerely,
