

EEX Launches New Market Maker Initiative for German Power Futures

Dear exchange participants,

EEX will launch a new “Spread Leadership Initiative”, a performance-based market-making scheme for the EEX German Power Baseload market. The programme has been designed to significantly enhance market quality and on-screen liquidity by rewarding participants who provide consistently tight bid-ask spreads and a high presence in the order book.

EEX intends to onboard up to eight (8) participants to this new programme. The seats will be allocated on a “first come, first served” basis to qualifying firms who meet the performance requirements.

This opportunity is open to all direct trading participants.

Those who wish to take part in this initiative are requested to express their interest to their EEX Key Account Manager by 15 June 2026 (CEST).

Please contact your sales representative for more detailed information.

Yours sincerely,
