Refund of charges to prolong for Delta Hedge of Power Options / EEX to delist EURO Coal Futures

Dear trading participants,

To further support the positive market development of Power Options, EEX will prolong to waive any trading fees for future transactions which were concluded as "Delta Hedge" for Phe-lix-, French-, Italian-, Nordic- and Spanish-Base-Options. Therefore the transaction fees for trading the underlying future (0.75 ct/MWh) will be refunded providing that:

- i. the option deal and the corresponding future deal (Delta Trade) is concluded at EEX on the same trading day
- ii. the EEX-Trade-ID of the underlying future deal has been entered in the text field of the options deal.

The refund applies only for the initial underlying future position and therefore re-adjustments will be excluded (Gamma Hedge).

Delisting of Euro Coal Futures

The Euro Coal suite offered for Trade Registrations will be delisted after the end of trading at EEX on 26 February 2016. This includes the following products:

- FE2M, FE2Q, FE2Y: API 2 CIF ARA Coal Futures settled in EUR
- FE4M, FE4Q, FE4Y: API 4 FOB Richards Bay Coal Futures settled in EUR

All other USD denominated Coal Futures are not affected and remain available for Trading and Trade Registration Services.
