

# Hello Brussels.

As the leading commodity exchange in Europe, the European Energy Exchange (EEX) develops, operates and connects the markets for global energy and commodity trading from Leipzig and 16 offices worldwide. What's the secret to our success? We are a team of experts with a common vision, driving forward exciting projects, exchanging experiences and celebrating success.

## **(Senior) Political & Regulatory Affairs Employee (f/m/d) in Brussels**

### **Your responsibilities:**

You will be analyzing current political and regulatory developments regarding energy and financial markets with a focus on sustainability-related topics such as CO2-markets, renewable energies and sustainable finance in the context of the European Green Deal. You will contribute to the design of the regulatory framework for energy and financial markets in cooperation with industry, associations and political stakeholders on a national, European and global level. In addition, you will support the internal implementation of regulatory requirements.

Of course, you receive a great deal in return for your outstanding performance. EEX highly values the exchange of ideas, working together and encouraging each other to become better. We call it: The exchange mindset.

**You have made it this far – together with us you can go further: Please send your job applications to Nadin Eckhardt at [jobs@eex.com](mailto:jobs@eex.com) or have a look online at [eex.com](http://eex.com) > Career. You are welcome at any time.**

(For encrypted transmission of your applicant details, please contact [jobs@eex.com](mailto:jobs@eex.com))

# Welcome to our World.

### **What we can offer you:**

- › Attractive salary package
- › Personal development: extensive training opportunities
- › A place in a dynamic and international team within EEX Group and Deutsche Börse Group.
- › A long-term perspective in the constantly growing and evolving energy industry

## **The exchange mindset.**

### **You bring along:**

- › Academically qualified in political science, economics or engineering
- › Professional experience in energy or financial markets
- › Knowledge of EU institutions and processes
- › Excellent command of spoken and written English, command of French and German a plus
- › Responsible and results-oriented working style as well as high reliability
- › Ability to analyse complex issues and to present these in a target group-oriented manner
