

# Hallo Leipzig.

**Hello from EEX.** As the leading commodity exchange in Europe, we develop, operate and connect the markets for global energy and commodity trading from Leipzig and 16 other worldwide offices. What's the secret to our success? We are an expert team of dynamic individuals that drive forward exciting projects while sharing experiences, celebrating success and creating memories, together. If this sounds appealing to you, then here's how you can kick-start your professional life with us.

## EEX Graduate Trainee Programme

### Our offer, an exciting blend of 3 elements:

To start with, gain valuable insights into our core business and processes by working right at the heart of our activities - Market Operations and Clearing. In addition, play to your strengths and choose an area based on your interests: Continue in Market Operations or Clearing, or go for Accounting & Tax / Controlling, Business Analysis & Projects, or...simply pick another area that suits you. On top of that, if you want, take the unique opportunity to head off to our Paris branch for an international experience.

In doing so, you will build the foundation for your professional development and of course, receive a great deal in return for your outstanding performance from your team. After all, we value the exchange of ideas, working together and encouraging each other to become better. We call it: The exchange mindset.

**You have made it this far – together with us you can go further: Please send your application to Nadin Eckhardt / Michael Schur at [jobs@eex.com](mailto:jobs@eex.com) or have a look online at [eex.com](http://eex.com) > Career. You are welcome at any time.**

(For encrypted transmission of your applicant details, please contact [jobs@eex.com](mailto:jobs@eex.com))

# Welcome to our World.

### What you can expect:

- ◀ 18-month job rotation programme, allowing you to benefit from 3 different experiences, including a placement in our Paris office
- ◀ Main location: Leipzig, Germany
- ◀ Permanent contract from the start
- ◀ Individual development plan including mentoring with a member of our leadership team, technical & soft skills training
- ◀ A long-term perspective in the constantly growing and evolving energy industry

## The exchange mindset.

### What you bring along:

- › Bachelor's or Master's degree with very good grades and preferably an international study background
- › Passion to immerse yourself in a culture where English is key to collaborate with colleagues from Europe, Asia, and the US
- › A genuine interest in learning on-the-job
- › Availability to start between November 2020 and April 2021
